

A message from Kevin Core Founder of Angelic Reiki

I am honoured to be the channel of this Angelic Reiki System of Healing, which was passed to me by Archangel Metatron from October 2002 to February 2003.

The Angels themselves do all the attunements in this system through the Angelic Kingdom of Light. Although symbols are given, it is not a requirement that the student memorise any of them. The Reiki symbols, and much more, are integrated into your energy body at the time of attunement. During the healing of a patient, the healer is simply a channel, a bridge, whereby the energy of the Angelic Kingdom is passed to the patient. The healer does not have to worry if they gave the correct symbols or if they concentrated on the correct place for the healing. Every healing is perfect in its conception and transmission.

As this system is the Archangel Metatron's, I have asked that Being to contribute to this introduction, what follows is the result:

'The Angelic Kingdom is your guide to being the channels, the tools of the hand of the Divine. Part of this knowledge which we will give to you is that system which is now known as Angelic Reiki'

This workshop is available to everyone from all walks of life. Some will practice Angelic Reiki simply to treat themselves, family & friends and others will practice it more extensively. Some will return for the Master's Workshop and, like myself, want to teach and share it that way. Others continue to the Master's Workshop simply because they want to.... because of what they feel they have gained and can give. Angelic Reiki was the trigger that changed my life and the way I now choose to live it – there is an awareness, vibrancy, joy and lightness in my life that I've never experienced before. Interested? I invite you to pick up the phone and call me ... Julia

Angelic Reiki

Although Angelic Reiki uses symbols common to other Reiki systems there is something extra attached to this system which sets it apart. That something is the Divine vibration which comes in on the Reiki symbols and attunes the practitioner and client to their Soul energy. It is the Angelic vibration being an extension of the Divine itself that makes this possible.

During a healing both the practitioner and client receive a down pouring of Soul energy which raises their consciousness. For the client this causes any old thought forms not in tune with the Divine vibration to become dislodged and transmuted to a higher vibration relieving non harmonious physical, emotional and mental conditions.

The practitioner also receives this energy which enables them to perceive the causes of dis-ease more clearly. They also become more attuned to working with the beings of Light on the higher dimensions, whose purpose it is to anchor Divinity on the Earth.

This system is transformational both for the practitioner and client. You will experience this in your work and be encouraged to guide those who come to you for help.
